MR. MITCHELL KENNERLEY,
President, The Anderson Galleries,
Park Avenue and Fifty-ninth Street,
New York, N. Y.

MY DEAR MR. KENNERLEY:—

I have your letter of the 7th in which you state that my collection is catalogued and the manuscript ready for the printer. As I wrote you previously, the reason that I am disposing of my collection by auction is that I have sold my estate at Mt. Airy. I also feel that with your method, a greater number of collectors will have the opportunity to enjoy the pleasures of selection—a pleasure I enjoyed during the past twenty years.

Needless to say, it is with genuine regret that I part with my things, and still it gives me a certain amount of pride to think of the many rare items which could not be secured at first hand to-day, as was possible when I was an active buyer.

I think that it might be propitious to add a few words at the beginning of the catalogue addressed, first, to the friends who have assisted me in securing many of the items and, second, to the various future possessors of these pieces, stating the general attitude which prompted the assemblage.

In 1905, in building my present homestead I considered the exterior architecture, but spent more time in the arrangement of the interior. The workmanship of the more elaborate cabinet makers of the Colonial period together with the fine old English furnishings adapted themselves admirably to this setting. My collection was formed from a standpoint of utility and comfort as well as for its rarity and artistic merit. The designs of Sheraton, Chippendale and the earlier English craftsmen, whether executed by the masters themselves or interpreted by the early American cabinet makers, are a representative example of the origin of "comfort at home", so well defined by our ancestry and more in favor with each passing generation.

Thanking you for your efforts in my behalf,

(Signed) ADRIEN F. WELLENS
